About us

Tre Poggi was founded out of **the love and respect for the land:** values of our family that have been handed down from generations to generations.

The company consists of three farms located in the Tuscan Maremma that is home to an **excellent Toscano IGP**, while the **DOP Laghi Lombardi** is produced in Franciacorta near the Iseo Lake.

Each “Poggio” has a different composition and our crops have their roots in various types of terroir giving us a panel of products with distinct peculiarities and personalities.

Vision and Mission: our Commitment to the Environment

We are committed to **sustainable development** through environmental protection, social responsibility, and economic progress.

We are dedicated to meeting the needs of our society and to minimizing the impact of our actions on future generations and on the environment.

For us, farming is like raising a family in a healthy way: in fact, we set ourselves the goal of feeding our communities with the same passion and dedication with which we raise our children.

The path to achieve this ambitious goal is based on three milestones:

Keeping the land fertile by
regenerating the soil

Keeping plants healthy by
rediscovering biodiversity

Increasing the quality of products
in nutritional terms
